## 2024 年度系列报告(2)

**报告题目:** Nonlinear Diffusion Equations with Orientated Convection

**报告人:** 尹景学 教授 华南师范大学

**时间:** 2024 年 10 月 23 日 (周三) 14:00-15:00

**地点:** 腾讯会议 448 619 395

**摘要:** In this talk, we pay our attention to the influence of convection on the propagation of disturbances in multi-dimensional space, and we are quite interested in specified orientated convection, namely the convection with counteracting diffusion and the convection with promoting diffusion.
